

Sustainability Resources for Massachusetts Businesses

Find and connect with organizations that offer assistance and funding for sustainability projects. Assistance is offered at no charge, unless specified otherwise.

ENERGY

Energy Efficiency

**Manufacturing Facilities
(including Food/Beverage Processing) with
annual energy costs of \$100,000 - 2.5 million**

UMass Amherst Center for Energy Efficiency and Renewable Energy offers in-depth assessments of energy and other resource use, including screening for renewable/onsite generation opportunities, through U.S. Department of Energy's Industrial Assessment Center Program. The Center will then help you connect with Mass Save for financial incentives toward implementation of recommendations.
